NON-DISCRIMINATION POLICY STATEMENT

The Kalamazoo Area Transportation Study (KATS) assures that no person shall, on the grounds of race, color, and national origin, as provided by Title VI of the Civil Rights Act of 1964 and the Civil Rights Restoration Act of 1987 (P.L. 100.259). Specifically, 42 USC 2000d states that *“No person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.”* KATS further assures every effort will be made to ensure nondiscrimination in all of its programs and activities, whether those programs and activities are federally funded or not. In addition to Title VI, there are other non-discrimination statutes that afford legal protection. These statutes include the following: Section 162 (a) of the Federal-Aid Highway Act of 1973 (23 USC 324) (sex), Age Discrimination Act of 1975 (age), and Section 504 of the Rehabilitation Act of 1973/Americans With Disabilities Act of 1990 (disability).

More specifically, the Kalamazoo Area Transportation Study assures that efforts will be made to prevent discrimination through the impacts of its programs, policies, and activities on minority and low-income populations. Additionally, the Kalamazoo Area Transportation Study will take reasonable steps to provide meaningful access to services for persons with Limited English Proficiency.

Introduction

What is an MPO?

A Metropolitan Planning Organization (MPO) is the policy board of an organization created and designated to carry out the metropolitan transportation planning process. MPOs are required to represent localities in all urbanized areas (UZAs) with populations over 50,000, as determined by the U.S. Census. MPOs are designated by agreement between the governor and local governments that together represent at least 75 percent of the affected population (including the largest incorporated city, based on population) or in accordance with procedures established by applicable state or local law.

What is KATS?

The Kalamazoo Area Transportation Study (KATS) is the MPO for the Kalamazoo Urbanized Area. The Metropolitan Planning Area (MPA) for KATS is Kalamazoo County and a portion of Van Buren County including the townships of Almena, Antwerp, Paw Paw, and Waverly. KATS is a federally mandated policy body made up of representatives from local, state, and federal governments, transit agencies, and other stakeholders and is responsible for regional transportation planning and programming for the planning area. Any highway, transit, local road, or non-motorized project or program to be constructed or conducted in the region receiving Federal funding, must have approval by KATS before any funds can be expended. In addition, any highway or transit project deemed to be regionally significant by KATS staff, must receive KATS approval to proceed.

Title VI Legislation

Title VI of the Civil Rights Act of 1964 is a landmark civil rights and labor law in the United States that outlaws discrimination based on race, color, religion, sex, or national origin. It prohibits unequal application of voter registration requirements, and racial segregation in schools, employment, and public accommodations. Specifically, Title VI assures that “No person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefit of, or be otherwise subjected to discrimination under any program or activities receiving federal assistance.” Title VI has been by related statutes, regulations and executive orders. Section 324 of the Federal Aid Highway Act – this enabling legislation of the Federal Highway Administration (FHWA) – prohibits discrimination based on sex. The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 prohibits unfair and inequitable treatment of persons as a result of projects undertaken with Federal financial assistance. The Civil Rights Restoration Act of 1987 clarified the intent of Title VI to include all programs and activities of Federal Aid recipients and contractors whether those programs and activities are federally funded or not.

In addition to statutory authorities, Executive Order 12898, “Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations,” signed in February of 1994, requires federal agencies to achieve Environmental Justice as part of its mission by identifying disproportionately high and adverse human health or environmental effects of its programs, policies, and activities on minority populations and low-income populations. Environmental Justice initiatives are accomplished by involving the potentially affected public in the development of transportation projects within their communities without sacrificing safety or mobility. In 1997, the U.S. Department of Transportation (USDOT) issued its DOT Order to Address Environmental Justice in Minority Populations and Low-Income Populations to summarize and expand upon the requirements of Executive Order 12898. Also, Executive Order 13166, “Improving Access to Services for Persons with Limited English Proficiency (LEP),” provides that no person shall be subjected to discrimination on the basis of race, color, or national origin under any program or activity that receives Federal financial assistance.

As a recipient of Federal financial assistances, the KATS must provide access to individuals with limited ability to speak, write or understand the English language. The KATS must not restrict an individual in any way from the enjoyment of any advantage or privilege enjoyed by others receiving any service, financial aid, or other benefit under its programs or projects. Individuals may not be subjected to criteria or methods of administration causing adverse impact due to their race, color, or national origin, or have the effect of defeating or substantially impairing accomplishment of the objectives of the program because of race, color, or national origin. Therefore, the primary goals of the KATS Title VI Program are:

1. To assign roles, responsibilities, and procedures for ensuring compliance with Title VI of the Civil Rights Act of 1964 and related regulations and directives.
2. To ensure people affected by the KATS programs and projects receive the services, benefits, and opportunities to which they are entitled without regard to race, color, national origin, age, sex, or disability.
3. To prevent discrimination in the KATS programs and activities, whether those programs are federally funded or not.
4. To establish procedures for identifying impacts in any program, service, or activity that may create an illegal adverse impact on any person because of race, color, national origin, age, sex, or disability; or on minority populations, low-income populations, the elderly, and persons with disabilities.

5. To establish procedures to annual review the Title VI compliance.
6. To set forth procedures for filing complaints by persons who believe they have been subjected to illegal discrimination under Title VI in a KATS service, program, or activity.

Discrimination under Title VI

There are two types of discrimination prohibited under Title VI and its related statutes. One type of discrimination that may or may not be intentional is “disparate treatment.” Disparate treatment is defined as treating similarly situated persons differently because of their race, color, national origin, sex, age, or disability.

The second type of discrimination is “disparate impact.” Disparate impact occurs when a “neutral procedure or practice” results in fewer services or benefits, or inferior services or benefits, to members of a protected group. With disparate impact, the focus is on the consequences of a decision, policy or practice rather than the intent.

The KATS’s efforts to prevent such discrimination must address, but not be limited to, a program’s impacts, access, benefits, participation, treatment, services, contracting opportunities, training, investigation of complaints, allocation of funds, prioritization of projects, and the overarching functions of planning, project development and delivery, right-of-way, construction, and research.

The KATS has developed this Title VI Plan to assure that services, programs, and activities of the region are offered, conducted, and administered fairly, without regard to race, color, national origin, sex, age, or disability of the participants or beneficiaries of federally programs, services, or activities (see Title VI Assurances).

Kalamazoo Area Transportation Study Title VI Non-Discrimination Policy Statement

The KATS reaffirms its policy to allow all individuals the opportunity to participate in federal financially assisted services and adopts the following provision:

“No person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.” In applying this policy, the KATS and its sub-recipients of federal funds shall not:

1. Deny any individual any services, opportunity, or other benefit for which such individual is otherwise qualified;
2. Provide any individual with any service or other benefit which is inferior (in quantity or quality) to, or which is provided in a different manner from, that which is provided to others;
3. Subject any individual to segregated or disparate treatment in any manner related to such individual’s receipt of services or benefits;
4. Restrict an individual in any way from the enjoyment of services, facilities or any other advantage, privilege or other benefit provided to others;
5. Adopt or use methods of administration which would limit participation by any group of recipients or subject any individual to discrimination;

6. Address any individual in a manner that denotes inferiority because of race, color, or national origin;
7. Permit discriminatory activity in a facility built in whole or in part with federal funds;
8. Deny any segment of the population the opportunity to participate in the operations of a planning or advisory body that is an integral part of a federally funded program;
9. Fail to provide information in a language other than English to potential or actual beneficiaries who are of limited English speaking ability, when requested and as appropriate;
10. Subject an individual to discriminatory employment practices under any federally funded program whose objective is to provide employment;
11. Locate a facility in any way which would limit or impede access to a federally-funded service or benefit.

The KATS will actively pursue the prevention of any Title VI deficiencies or violations and will take the necessary steps to ensure compliance. If irregularities occur in the administration of the program's operation, procedures will be promptly implemented to resolve Title VI issues, all within a period not to exceed 90 days.

The KATS designates Jonathan R. Start, Executive Director of the Kalamazoo Area Transportation Study, as the Title VI Coordinator. The Executive Director will be responsible for initiating and monitoring Title VI activities and other required matters, ensuring that the KATS complies with the Title VI regulations and pursues prevention of Title VI deficiencies or violations. Structure for Organizational Oversight and Compliance

The Director of the Kalamazoo Area Transportation Study is responsible for ensuring all internal program areas and external recipients of federal funds are in compliance with Title VI and related statutes. The Director has appointed the Finance and Administrative Manager for the implementation and management of the Title VI program. The KATS Finance and Administrative Manager will provide oversight for the coordination of the day-to-day administration of the Title VI Program and will report to the Director on all related matters.

Programmatic Roles and Responsibilities

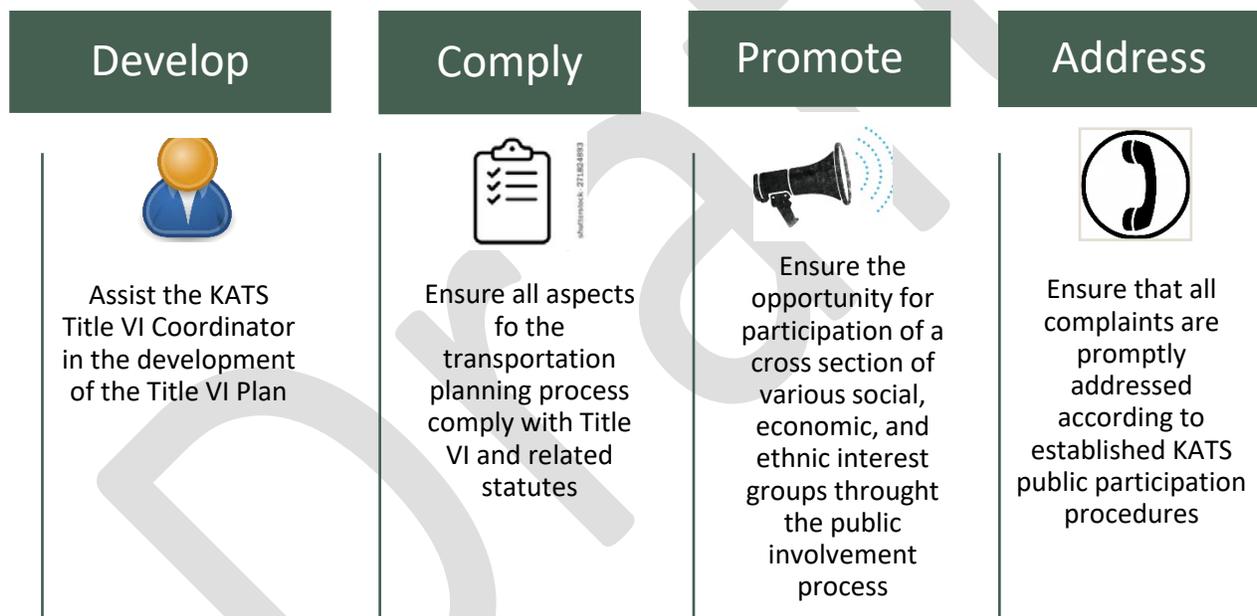

KATS Title VI Coordinator

The Kalamazoo Area Transportation Study conducts transportation planning for all of Kalamazoo County and four townships in Van Buren County, including Alma, Antwerp, Paw Paw, and Waverly. A comprehensive transportation planning process is used incorporating input from the public into various Metropolitan Planning Organization (MPO) activities. The process further entails the monitoring and collection of varied data pertaining to transportation related issues. The KATS coordinates transportation planning on the Federal Aid Road Network utilizing input from the public. The KATS also provides technical support to jurisdictions and agencies when needed.

Title VI Responsibilities

Administration – General

Complaints may be filed with the Title VI Coordinator. Every effort will be made to resolve complaints informally at the lowest level.

Data Collection: Statistical data on race, color, national origin, English language proficiency, and sex of participants in and beneficiaries of the KATS programs, e.g. impacted citizens and affected communities, will be gathered and maintained by the KATS. The gathering procedures will be reviewed annually to ensure sufficiency of the data in meeting the requirements of the Title VI program.

Appendix E – Determine/Distinguish Significant or Non-Significant Effects

“Significant” requires considerations of both context and intensity:

- a) Context: this means that the significance of an action must be analyzed in several contexts such as society as a whole (human, nation), the affected region, the affected interests, and the locality. Significance varies with the setting of the proposed action. For instance, in the case of a site specific action, significance would usually depend upon the effects in the local area rather than in the world as a whole. Both short and long-term effects are relevant.
- b) Intensity: this refers to the severity of impact. Responsible officials must bear in mind that more than one agency may make decisions about partial aspects for a major action. The following should be considered in evaluating intensity:
 - a. Impacts that may be both beneficial and adverse. A significant effect may exist even if, on balance, the effect would be beneficial.

“Non-Significant Effect” means no substantial change to an environmental component and this has no material bearing on the decision making process.

Scientific, technical, institutional, the public’s value, and the local economic condition influence the meaning of significant effect.

If an alternative would provide a beneficial effect, then the alternative would cause no significant adverse effect. If an alternative would provide an adverse effect, the effect might be significant or the effect might be non-significant.

Determination of “significant” and “non-significant” effects will be made by the Executive Director.
